John Christopher, Head Constable, Tinnevelly district—On the 23rd November 1933, Shanmugiah Thevan, the head of a notorious criminal organisation who had for several months successfully evaded arrest, was located with two associates in a certain village which was promptly surrounded. Shanmugiah Thevan and one of his companions took shelter in a house, announcing their intention to resist to death. Both were armed with guns and choppers. A Constable and a villager climbed on to the roof of the house whereupon Shanmugiah Thevan, after firing through the roof at them, thrust the barrel of his gun into the constable's stomach The constable fell from the roof to the ground and died of his injuries shortly after. The police party opened fire and Shanmugiah Thevan was about to return their fire when he was severely wounded. Head Constable John Christopher followed by two other head constables then rushed the house and overpowered the desperadoes Shanmugiah Thevan was found to be badly wounded and died later His companion was in the act of reloading a gun when the head constable entered the house The Head Constable displayed bravery of a high order in attacking these two criminals who offered a determined resistance.

(2) "Rubber" includes—

(a) rubber prepared from the leaves, bark or latex of any rubber plant and the latex of any rubber plant, whether fluid or coagulated, in any stage of the treatment to which it is subjected during the process of conversion into rubber, and latex in any state of concentration, and

(e) Any other plant which the Governor General in Council may decide to be a rubber plant for the purpose of this resolution.

(4) "Year" means the calendar year.

2. The licensing authority for India (excluding Burma) shall be a Committee, to be called the Indian Rubber Licensing Committee (hereinafter referred to as the Committee), representative of the rubber growing industry and consisting of five members two of whom shall be nominated by the Government of Travancore and one each by the Government of Madras, the Cochin Durbar and the United Planters' Association of Southern India.

3. The Committee shall elect a Chairman and may appoint such Sub-Committees and executive officers as may be necessary for the efficient performance of the duties entrusted to it.

4. The Committee shall maintain an office at Kottayam or at such other place as may be convenient for the transaction of its business and may open offices in other localities should necessity arise.

5. The Committee shall maintain a record of the export quota allotted from time to time to each rubber estate or factory as determined in the manner hereafter mentioned and shall also maintain an account of all licences issued against such quotas.

6. The permissible exportable amount for India (excluding Burma) for any period shall be the quantity of rubber equivalent to such percentage as may from time to time be fixed by the International Rubber Regulation Committee as the percentage of the basic quota which

may be exported during that period. The net exports for such period shall not exceed the permissible exportable amount by more than 5 per cent:

Provided that if the net exports in any year exceed the permissible exportable amount for that year the excess shall be deducted from the permissible exportable amount for the next year.

Provided also that if the net exports in any year are in deficit of the permissible exportable amount for that year, the deficit may be added to the permissible exportable amount for the next year subject to a maximum addition of 12 per cent of the permissible exportable amount of the year to which the deficit occurred.

NOTE.—The basic quota allotted to India (excluding Burma) are as follows:—

1934. (Open to Re-export).	1935.	1936.	1937.	1938. *

7. The Committee shall not issue licences for an amount which, less the difference between imports and re-exports, exceeds the permissible exportable amount by more than 5 per cent.

8. The quota for each estate shall be based on the "crop basis of the estate", that is, the accepted maximum production of that estate in any one of the six years, 1928, 1929, 1930, 1931, 1932 and 1933, with the addition of an allowance for young rubber or untapped mature rubber or rubber for which authenticated figures of yield are not available on the scale set forth in the Schedule annexed hereto:

Provided that if for reasons recorded in writing the Committee is of opinion that the planted acreage is not capable of producing the yield as calculated in the manner described above, the Committee may in its discretion make such deduction therefrom as it thinks fit.

Provided further that where planting is scattered and calculation on an acreage basis is not possible, 150 trees of normal development shall be held to constitute one acre.

9. The quota of each estate shall bear the same ratio to the crop basis of that estate as the permissible exportable amount bears to the total of the crop bases of all rubber estates in India (excluding Burma).

10. The quota for each factory producing articles and things manufactured partly or wholly of rubber shall be the rubber equivalent of the maximum export of that factory in any one of the six years, 1928, 1929, 1930, 1931, 1932 and 1933.

11. Export rights created by the allocation of a quota shall be transferable.

12. On application by a rubber producer or manufacturer or by any exporter to whom export rights have been transferred by a producer or manufacturer, the Committee or the officer empowered by it in that behalf shall issue an export licence and a certificate of origin covering the quantity proposed to be exported, provided that the unexhausted quota standing in the name of the producer or manufacturer, as the case may be, who desires to export or by whom the export rights have been transferred is sufficient to cover such quantity.

13. On production of a valid licence and certificate of origin or duplicate to the Customs Collector at the place of export, the Customs Collector may permit shipment of the quantity of rubber covered by those documents.

14. Each licence shall be valid for the period stated therein provided that if the consignment covered by the licence is presented for shipment before the end of such period and remains thereafter under Customs control until shipment is effected, the licence will not be invalidated by reason only that shipment has not taken place within the stated period.

15. The records of the Committee shall be open at any time to inspection by any officer appointed in that behalf by the Governor General in Council.

16. All acts of the Committee shall be subject to the control of the Governor General in Council, who may annul, suspend or modify as he thinks fit any such act.

SCHEDULE.

No. 40.—For the purposes of the Notification No 30-Customs, dated the 26th May 1933, the following instructions issued by the Governor-General in Council appointing the licensing authority for Burma and laying down the conditions for the grant of export licences and cert ficates of origin for rubber exported from ports in Burma are published for general information:—

1. In these rules—

(1) "Net exports" means the difference between the total imports of rubber during a period and the total exports of rubber during the same period, provided that imports or re-exports of articles and things manufactured wholly or partly of rubber shall not be included in arriving at net exports.

(2) "Rubber" includes—

(a) rubber prepared from the leaves, bark or latex of any rubber plant and the latex of any rubber plant, whether fluid or coagulated, in any stage of the treatment to which it is subjected during the process of conversion into rubber, and latex in any state of concentration, and

(b) all articles and things manufactured in India wholly or partly of rubber.

(3) "Rubber plant" means and includes plants, trees, shrubs or vines of any of the following:—

(a) Hevea Brasiliensis (Para Rubber),

(b) Manihot Glaziovii (Ceara Rubber),

(c) Castilloa elastica,

(d) Ficus elastica (Rambong),

(e) Any other plant which the Governor General in Council may decide to be a rubber plant for the purpose of this Resolution.

(4) "Year" means the calendar year.

2. The licensing authority for Burma shall be a Committee, to be called the Burma Rubber Licensing Committee (hereinafter referred to as the Committee) consisting of three members two of whom shall be nominated by the Government of Burma and one by the Burma Planters' Association.

3. The Committee shall elect a Chairman and may appoint such Sub-Committees and executive officers as may be necessary for the efficient performance of the duties entrusted to it.

4. The Committee shall maintain an office at Rangoon or at such other place as may be convenient for the transaction of its business and may open offices in other localities should occasion arise.

5. The Committee shall maintain a record of the export quota allotted from time to time to each rubber estate or factory as determined in the manner prescribed by the local Government and shall also maintain an account of all licences issued against such quotas.

6. The permissible exportable amount for Burma for any period shall be the quantity of rubber equivalent to such percentage as may from time to time be fixed by the International Rubber Regulation Committee as the percentage of the basic quota which may be exported during that period. The net exports for such period shall not exceed the permissible exportable amount by more than 5 per cent.

Provided that if the net exports in any year exceed the permissible exportable amount for that year the excess shall be deducted from the permissible exportable amount for the next year.

Provided also that if the net exports in any year are in deficit of the permissible exportable amount for that year, the deficit may be added to the permissible

exportable amount for the next year subject to a maximum addition of 12 per cent of the permissible exportable amount of the year in which the deficit occurred.

NOTE.—The basic quotas allotted to Burma are as follows :—

	1934 (June to December).	1935.	1936.	1937	1938.

7. The Committee shall not issue licences for an amount which, less the difference between imports and re-exports, exceeds the permissible exportable amount by more than 5 per cent.

8. Export rights created by the allocation of a quota shall be transferable.

9. On application by a rubber producer or manufacturer or by an exporter to whom export rights have been transferred by a producer or manufacturer, the Committee or the officer empowered by it in that behalf shall issue an export licence and a certificate of origin covering the quantity proposed to be exported, provided that the exhausted quota standing in the name of the producer or manufacturer, as the case may be, who desires to export or by whom the export rights have been transferred is sufficient to cover such quantity.

10. On production of a valid licence and certificate of origin in duplicate to the Customs Collector at the place of export, the Customs Collector may permit shipment of the quantity of rubber covered by those documents.

11. Each licence shall be valid for the period stated therein provided that if the consignment covered by the licence is presented for shipment before the end of such period and remains thereafter under Customs control until shipment is effected, the licence will not be invalidated by reason only that shipment has not taken place within the stated period.

12. The records of the Committee shall be open at any time to inspection by any officer appointed in that behalf by the Governor General in Council

Whereas the Governor acting with Ministers is satisfied that certain parts of the Presidency of Madras are visited by and other parts are threatened with an outbreak of the dangerous disease known as plague ;

And whereas the ordinary provisions of the law for the time being in force in the said Presidency are insufficient to prevent the outbreak of such disease or the spread thereof ;

Now therefore in exercise of the powers conferred by section 2-A of the Epidemic Diseases Act, 1897 (III of 1897), as amended by the Devolution Act, 1920 (XXXVIII of 1920), and in supersession of all regulations previously issued on the subject, the Governor acting with Ministers is hereby pleased to prescribe the following temporary regulations to be observed throughout the said Presidency except the City of Madras for a period of one year from the 16th day of July, 1934.

1. In these regulations—

and includes in respect of any area any other person who may be appointed by the Local Government or by the Collector as plague officer for such area.

2. In similar circumstances, the Collector may notify by tom tom and by publication in the District Gazette that any place or area in his district is infected with plague and shall inform the Local Government forthwith of all such notifications and the Local Government may cancel or modify such notification.

4. In any infected area the Collector, or a plague officer with the previous sanction of the Collector, may order the evacuation of infected premises and of premises in the neighbourhood of such premises, or generally of the infected area or any part thereof.

Nothing contained in this regulation shall be deemed to apply to persons who produce a certificate from a Registered Medical Practitioner or a qualified Sanitary Inspector authorized in this behalf either by a District Health Officer or by a Municipal Health Officer as the case may be to the effect that they have been successfully inoculated against plague within a period of six months immediately preceding the notification of a place or area as an infected area or who get themselves inoculated within 24 hours of the publication of such notification and produce a certificate to that effect from a Registered Medical Practitioner or a qualified Sanitary Inspector authorized in this behalf either by a District Health Officer or by a Municipal Health Officer as the case may be.

12. (1) In the absence of a written contract to the contrary, every inspector, mistri, peon, watchman, labourer, scavenger, or other menial servant employed to do duty in connection with plague shall be entitled to one month's notice before discharge, or to one month's wages in lieu thereof unless he is discharged for misconduct or was engaged for a specified term and is discharged at the end of such term.

(2) No such inspector, mistri, peon, watchman, labourer, scavenger, or menial servant shall, in the absence of a written contract authorizing him to do so, or without reasonable cause, resign his employment or absent himself from his duties or neglect or refuse to perform any of his duties without giving a month's notice.

(3) The Collector may from time to time appoint persons as suppliers of labourers or other menial servants subject to such conditions as he deems fit and every such supplier shall be bound faithfully to carry out the duties assigned to him by the Collector and to observe the conditions under which he was appointed.

13. When in consequence of the exercise of the powers conferred by or under these regulations any property is damaged or destroyed, the Collector shall pay to the owner by way of compensation such sum as he may consider sufficient to cover the cost of repairing the damage or replacing the property destroyed. The Collector's decision fixing the amount of compensation to be paid shall be final. No compensation shall however be payable to cover the cost of replacing the articles destroyed under clause (4) of regulation 11.

NOTE.—(1) The Plague Regulations being orders formally made and issued by Government under the Epidemic Diseases Act, no sanction is required at a committing Presidency to prosecutions for disobeying them (Judgment of the High Court in Criminal Appeal No. 501 of 1898).

(2) By Command Order No. 657 dated 13th November 1926, all ranks in the Madras Command have been directed to obey the Plague Regulations, and any infraction by any of them is punishable as a military offence. Military pensioners have been warned (superintendent's circular No. 11, dated 24th November 1926) that any disobedience or wilful neglect of the regulations or obstruction offered to any officer on plague duty will be treated as a breach of the good conduct required by Government as a condition of the continuation of their pensions, and that any person so being guilty thereof will be liable to have his pension stopped forthwith and the same reduced or permanently withdrawn.

Such tendering corporations may be required, before the contract is executed, to furnish evidence of its corporate existence.

3. Each tenderer must pay as earnest money, a sum of Rs. 100 (rupees one hundred only) into the branch of the Imperial Bank of India or into the Government treasury or sub-treasury within the jurisdiction of the Executive Engineer concerned, to the credit of revenue deposits on behalf of the Executive Engineer of the Kistna Western Division and enclose with his tender the challan endorsed accordingly. This earnest money will be refunded to the unsuccessful tenderer on application, after intimation is sent of rejection of the tender or on the expiration of two months from the date of tender, whichever is earlier. The refund will be authorized by the Executive Engineer by suitable endorsement on the challan. The earnest money will not be received in cash or currency notes by the Public Works Department officers, save in exceptional cases, where there are no treasuries or banks within the periodic test of the officer calling for tenders. When currency notes are given, the tenderer should sign his name in full with date, on the back of all the currency notes given by him whatever their denominations may be.

The earnest money will be returned in the case of the successful tenderer, and will not carry any interest. It will be dealt with as provided in the tender.

4. When a tender is to be accepted, the tenderer whose tender is under consideration shall attend the Division office on the date fixed by written intimation to him. He shall forthwith upon intimation being given to him by the Executive Engineer of acceptance of his tender, sign an agreement in the departmental K-2 form for the due fulfilment of contract. Failure to enter into the required agreement shall entail forfeiture of the earnest money.

5. To give to prospective tenderers an idea about the nature and volume of work to be done and to enable them to quote suitable rates a schedule of approximate quantities is furnished. It shall however be definitely understood that the Government does not accept any responsibility for the correctness of the schedule and that it is liable to alterations by omissions, deductions or additions. The several items of work noted in the schedule are to be executed as per the Madras Detailed Standard Specifications or supplemental specifications for which reference is given against each. The tenderer should carefully study the drawings, specifications and all the documents relating to the work to execute which this tender is called for. These can be seen at any time between 11 a.m. and 5 p.m. on office days in the office of the Executive Engineer, Kistna Western Division, Bezwada.

6 The tenderer's particular attention is drawn to the conditions and to the directions to parties tendering, detailed on the K-2 agreement form and also to the sections and clauses in the Standard Preliminary Specification of the Madras Detailed Standard Specification dealing with (a) Materials and workmanship—Section D, clauses 20 to 27—and (b) included in the contract rates —Section E and clauses 33 to 41 and 43.

7. Every tenderer is expected, before quoting his rates, to inspect the site of the proposed work. He should also inspect the quarries, and satisfy himself about the quality and availability of materials. The names of quarries, kilns, etc., wherefrom certain materials are to be obtained will be given in the Descriptive Specification Sheet. The best class of materials to be obtained from the quarries or other sources defined shall be used on the work. In every case the materials must comply with the relevant standard specification. Samples of materials as called for in the standard specifications, or in this tender notice, or as required by the Executive Engineer, Kistna Western Division, in any case, shall be submitted for the Executive Engineer's approval before the supply to site of work is begun. If the contractor, after examination of the source of materials defined in the Descriptive Specification Sheet, is of opinion that materials complying with the standard or other specifications of the contract cannot be obtained in quality or sufficient quantity from the source defined in the Descriptive Specification Sheet, he shall so state clearly in his tender and state wherefrom he intends to obtain materials, subject to the approval of the Executive Engineer, Kistna Western Division.

The Government will not, however, after acceptance of a contract rate pay any extra charges for lead or for any other reason, in case the contractor is found later on to have misjudged the materials available. Attention of the contractor is directed to the standard "Preliminary Specification" regarding payment of seigniorage, tolls, etc.

8. The rate tendered should be for finished work in site inclusive of all incidental charges connected with its execution and should be quoted in rupees, annas and in case of three pies. The rates should be written in words and figures and the units in words. The tender should be written legibly and free from erasures, overwritings or conversion of figures. Corrections where unavoidable should be made by crossing out, initialing, dating and rewriting.

9. Tenders offering a percentage deduction from or increase on the estimate amount, and those not submitted in proper form or in due time will be rejected. Rates or lump-sum amounts for items not called for shall not be included in the tender. The tenderer should work out his own rates, without reference being made to the Public Works Department current schedule of rates, or to the Public Works Department estimate rates which are not open for inspection by tenderers.

10. The materials that will be supplied by Government and the places and rates at which they will be supplied, are noted on the end of the schedule accompanying the tender form. Tenderers must accept the materials at these rates and places specified, and shall quote their price for finished work accordingly. Notwithstanding any subsequent change in the market value for these materials, the charge to the contractor will remain as originally entered in the written contract. No cartage or incidental charges will be borne by Government in connexion with this supply.

11. No part of the contract shall be sublet without written permission of the Executive Engineer nor shall transfer be made by power-of-attorney authorising others to receive payment on contractor's behalf.

12 If further necessary information is required the tenderer will furnish such, but it must be clearly understood that tenders must be received in order, and according to instructions.

13. The Executive Engineer or other sanctioning authority reserves the right to reject any tender or all the tenders without assigning any reason therefor.

14. No extra payment will be made for any baling of water that may be required during the execution of the work. The same shall be included in the rates for the respective items.

TENDER FOR CONSTRUCTING THE PROPOSED NATURAL SCIENCE BLOCK, PRESIDENCY COLLEGE, MADRAS.

Tenders will be received by the Executive Engineer, South Presidency Division, at his office at Chepauk, up to 3 p.m. on 13th July 1934 for the work of constructing the proposed Natural Science Block, Presidency College, Madras (shown basement).

The tender should be in the prescribed form obtainable from the Executive Engineer's office.

1. Tenders must be submitted in sealed covers, and should be addressed to the Executive Engineer, South Presidency Division, the name of the tenderer and the name of the work being noted on the cover.

If the tender is made by an individual, it shall be signed with his full name and his address shall be given. If it is made by a firm, it shall be signed with the co-partnership name by a member of the firm, who shall also sign his own name, and the name and address of each member of the firm shall be given. If the tender is made by a corporation, it shall be signed by a duly authorized officer who shall produce with his tender, satisfactory evidence of his authorization. Such tendering corporation may be required, before the contract is executed, to furnish evidence of its corporate existence.

2. Each tenderer must pay, as earnest money, a sum of Rs. 7,500 (rupees seven thousand and five hundred only) into the branch of the Imperial Bank of India, or into the Government treasury or sub-treasury within the jurisdiction of the Executive Engineer concerned to the credit of revenue deposits on behalf of the Executive Engineer of the South Presidency Division and enclose with his tender the chalan, endorsed accordingly. This earnest money will be refunded to the unsuccessful tenderer on application, after intimation is sent of rejection of the tender or at the expiration of two months from date of tender, whichever is earlier. This refund will be authorized by the Executive Engineer by suitable endorsement on the chalan. The earnest money will not be received in cash or currency notes by the Public Works Department officers save in exceptional cases, where there are no treasuries or banks within the jurisdiction of the officer calling for tenders. When currency notes are given, the tenderer should sign his name in full with date, on the back of all the currency notes given by him, whatever their denominations may be.

The earnest money will be retained in the case of the successful tenderer, and will not carry any interest. It will be dealt with as provided in the tender.

4. When a tender is to be accepted, the tenderer whose tender is under consideration shall attend the division office on the date fixed by written intimation to him. He shall forthwith upon intimation being given to him by the Executive Engineer of acceptance of his tender, make a security deposit of Rs. 7,500 (rupees seven thousand and five hundred only) in one of the forms prescribed in the Madras Public Works Account Code and sign an agreement in the proper departmental* form for the due fulfilment of the contract. This security deposit together with the earnest money and the amount withheld according to clause 58 of the standard preliminary specification of the Madras Detailed Standard Specifications, will be retained as security for the due fulfilment of the contract. If a cash security deposit is made by the contractor he shall follow the procedure laid down in the preceding paragraph for payment of earnest money and such deposit will not bear interest. Failure to enter into the required agreement or to make the security deposit as defined in this paragraph shall entail forfeiture of the earnest money.

5. The tenderer shall examine closely, the Madras Detailed Standard Specifications, and also the Standard Preliminary Specification contained therein, and sign the divisional office copy of the Madras Detailed Standard Specifications and its addenda volume in token of such study before submitting his tender and get his tender finished work in sets. He shall also carefully study the drawings and additional specifications and all the documents which form part of the agreement to be entered into by the accepted tenderer. The Madras Detailed Standard Specifications and other documents connected with the contract such as specifications, plans, descriptive specification sheet regarding materials, etc., can be seen at any time between 11 a.m. and 5 p.m. on office days, in the office of the Executive Engineer, South Presidency Division. A copy of the set of contract documents † can also be had on payment of Rs. 8 for each set.

6. The tenderer's attention is directed to the requirements for materials, under the clause "Materials and workmanship" in the "Preliminary Specification." Materials conforming to the British Standard Specifications shall be used on the work, and the tenderer shall quote his rates accordingly.

7. Every tenderer is expected, before quoting his rates, to inspect the site of the proposed work. He should also inspect the quarries, and satisfy himself about the quality and availability of materials. The names of quarries, kilns, etc., wherefrom certain materials are to be obtained will be given in the descriptive specification sheet. The best class of materials to be obtained from the quarries or other source defined shall be used on the work. In every case the materials must comply with the relevant standard specification. Samples of materials as called for in the standard specifications, or in this tender notice, or as required by the Executive Engineer, in any case, shall be submitted for the Executive Engineer's approval before the supply to site of work is begun. If the contractor, after examination of the source of materials defined in the descriptive specification sheet, is of opinion that materials complying with the standard or other specifications of the contract cannot be obtained in quality or sufficient quantity from the source defined in the descriptive specification sheet, he shall so state clearly in his tender and state wherefrom he intends to obtain materials subject to the approval of the Executive Engineer.

The Government will not, however, after acceptance of a contract rate pay any extra charges for lead or for any other reason, in case the contractor is found later on to have misjudged the materials available. Attention of the contractor is directed to the standard "Preliminary Specification" regarding payment of supervision, tolls, etc.

8. The tenderer's particular attention is drawn to the sections and clauses in the standard "Preliminary Specification" dealing with—

(1) test, inspection and rejection of defective materials and work;

* New Long term terms.

† I.e. plan, schedule of quantities, additional specifications and form of tender.

(2) carriage;
(3) construction plant;
(4) water and lighting;
(5) clearing up during progress and for delivery;
(6) accidents;
(7) delays, and
(8) particulars of payment.

The contractor should closely peruse all the specification clauses which govern the rates which he is tendering.

9. A schedule of quantities accompanies this tender notice. It shall be distinctly understood that the Government does not accept any responsibility for the correctness or completeness of this schedule, and that this schedule is liable to alterations by omissions, deductions or additions at the discretion of the Executive Engineer, South Presidency Division, or as set forth in the conditions of contract. The tenderer will, however, base his lump sum tender on this schedule of quantities. He should quote specific rates for each item in the schedule, and the rates should be in rupees, annas and in sums of three pies. The rates should be written both in words and figures and the sums in words. The tenderer should also show the totals of each item and the grand total of the whole contract and quote in the tender a lump sum for which he will undertake to do the whole work subject to the conditions of contract. This schedule accompanying the lump sum tender shall be written legibly and free from erasures, overwritings or conversions of figures. Corrections, where unavoidable, should be made by crossing out, initialing, dating and rewriting.

10. Tenders offering a percentage deduction from or increase on the estimate amount, and those not submitted in proper form or in due time will be rejected. Rates or lump sum amounts for items not called for shall not be included in the tender. No alteration which is made by the tenderer in the contract form, the conditions of contract, the drawings, specifications, or quantities accompanying same will be recognized; and, if any such alterations are made, the tender will be void.

11. The tenderer should work out his own rates, without reference being made to the Public Works Department current schedule of rates or to the Public Works Department estimate rates which are not open for inspection by tenderers.

12. The price at which and the source from which certain particular materials shall be obtained by the contractor are given at the end of the schedule accompanying the tender form. Tenderers must accept the material at these prices, and shall quote their price for finished work accordingly. Notwithstanding any subsequent change in the market value for these materials, the charge to the contractor will remain as originally entered in the written contract. No carriage or incidental charges will be borne by Government in connexion with this supply.

13. The attention of the tenderers is directed to the contract requirements as to the time of beginning work, the rate of progress, and the dates for the completion of the whole work and its several parts. The following rate of progress and proportionate value of work done from time to time, as will be indicated by the Executive Engineer's certificates of the value of work done, will be required. Date of commencement of this programme will be the date on which the site (or premises) is handed over to the contractor.

Period after date of commencement.	*Percentage of work completed (based on estimate lump sum amount).*
Three months	12½ per cent.
Six months	25 per cent.
Nine months	37½ per cent.
Twelve months	50 per cent.
Fifteen months	62½ per cent.
Eighteen months, etc. ..	75 per cent.
Twenty-one months	87½ per cent.
Twenty-four months	100 per cent.

NOTE.—The selected contractor should be able to show an expenditure of Rs. 50,000 before 1st March 1935.

14. No part of the contract shall be sublet without written permission of the Executive Engineer nor shall transfer be made by power-of-attorney authorising others to receive payment on the contractor's behalf.

15. If further necessary information is required, the Executive Engineer of the division will furnish such, but it must be clearly understood that tenders must be received in order, and according to instructions.

16. The Executive Engineer or other sanctioning authority reserves the right to reject any tender or all the tenders without assigning any reason therefor.

Reports of Select Committees to be presented to the Legislative Council of the Governor of Madras.

Under S.O. 41 of the Standing Orders of the Madras Legislative Council, the following Report of the Select Committee on the Bill to amend the Madras Hindu Religious Endowments Act, 1926 (Bill No. 3 of 1934) together with the Bill as amended by the Select Committee is published:—

BILL No. 3 OF 1934.

A Bill to amend the Madras Hindu Religious Endowments Act, 1926.

To

THE HONOURABLE THE LEGISLATIVE COUNCIL OF THE GOVERNOR OF MADRAS.

The Select Committee, appointed to consider the Bill to amend the Madras Hindu Religious Endowments Act, 1926 (Bill No. 3 of 1934), has the honour to submit the following report.

2. The Bill was published in the *Fort St. George Gazette*,

in English, on the 13th February 1934,

in Kanarese, on the 13th March 1934,

in Tamil, Telugu and Malayalam, on the 20th March 1934, and

in Oriya, on the 17th April 1934.

3. The Committee met on the 23rd March 1934 in the Council Chamber, Fort St. George, and resolved to meet at Stonehouse Hill, Ootacamund, on the 16th May 1934. It accordingly met on the 16th, 17th, 18th and the 19th May 1934 at Stonehouse Hill and considered the provisions of the Bill. On the 22nd May 1934, it met again at Stonehouse Hill and passed its report.

4. The Committee has subjected the Bill to a very careful scrutiny, and as a result thereof has made numerous alterations in the Bill. The more important of them are mentioned below.

Clause 4.—This clause provides for the recovery of the cost of auditing the accounts of a math, temple or religious endowment from the funds of such math, temple or endowment and of the cost of auditing the accounts of a temple committee from the funds of such temple committee. The Select Committee has restricted the amount of the cost so recoverable from the funds of a math, temple or religious endowment, to 1½ per cent of the gross income of such math, temple or religious endowment. It has made it clear that this amount shall be recoverable in the same manner as is provided for in sub-section (2) of section 70 of the Madras Hindu Religious Endowments Act, 1926, for the recovery of the contribution payable to the Board.

Clause 5.—The Committee thinks that in settling a scheme for a non-excepted temple the Board should have the power of fixing only the number of *non-hereditary* trustees and also that where the existing hereditary trustee is removed, the person next in the line of succession who is qualified should be entitled to succeed as trustee. The necessary amendments

have been made in this clause accordingly. The Committee does not consider it necessary that in the case of a non-excepted temple the Board should have power, in settling a scheme, to associate one or more persons with the trustees for the purpose of assisting him. It has accordingly deleted sub-clause (*d*) of proposed sub-section (1) of section 57. It has also made it clear that the executive officer, if any, to be appointed under sub-clause (*e*) shall be a person professing the Hindu religion. The sub section as originally framed did not contain a provision for the removal of an executive officer, and the Committee has inserted a provision in that behalf.

Clause 6.—This clause refers to the settling of a scheme by the Board for a math or excepted temple. Here also, the Committee has provided that the Board has power to fix only the number of non-hereditary trustees and to appoint an executive officer only from among persons professing the Hindu religion.

Clause 8.—This clause introduces a new chapter for the 'notification' of temples, with a view to enabling the Board to place the management of important temples on a satisfactory footing and appoint salaried executive officers for their management. *Inter alia* it provides that after the notification of a temple, any scheme of administration or rules framed thereunder shall cease to be operative. In view of the important consequences that are intended to follow from the notification of a temple, the Committee considers it necessary that, as far as possible, a judicial procedure should be followed before a notification is issued under the chapter. The Committee has therefore made provision for the following matters:—

(1) a notice by the Board to the trustee or any person having interest to show cause why for reasons stated in the notice a notification should not issue under the chapter;

(2) an enquiry into the objections, if any, raised by the trustee or any person having interest;

(3) a decision by the Board and the publication of the result of such decision;

(4) an appeal against the decision to the Local Government; and

(5) a final notification by the Government under the chapter.

With a view to carrying out these proposals, the proposed section 65-A has been completely redrafted so as to indicate clearly the procedure to be followed.

As originally drafted, the chapter referred only to temples. The Committee has considered it necessary to extend the provisions of the chapter to specific endowments attached to temples as well, and has made the necessary amendments.

Clause 9.—As under the provisions of the proposed section 65-E, in the case of notified temples, temple committees would cease to have jurisdiction or to exercise any power or perform any duties and as such powers and duties devolve upon the Board, the Select Committee has made it clear that the contribution of 1½ per cent payable by a temple to a temple committee shall, after it becomes notified, be paid to the Board and not to the temple committee.

Clause 11.—In this clause, the Committee has inserted a provision making the amendments introduced by the clause applicable to pending suits and appeals as the amendments are intended for the beneficial purpose of protecting public religious endowments.

5. The Committee has made several other changes which are of a drafting or of a consequential character. It is unnecessary to refer to them in detail here.

6. A copy of the Bill as amended by the Committee is attached.

7. The Committee considers that the Bill should be republished.

A. RANGANATHAM,
Chairman.

[NOTE.—The changes made by the Select Committee are shown in Clarendon type and the portions omitted are shown by dots.]

Under S.O. 41 of the Standing Orders of the Madras Legislative Council, the following report of the Select Committee on the Bill further to amend the Madras Hindu Religious Endowments Act, 1926 (Bill No. 19 of 1933) together with the Bill as amended by the Select Committee is published :—

BILL No. 19 OF 1933.

A Bill further to amend the Madras Hindu Religious Endowments Act, 1926, for certain purposes.

To

THE HONOURABLE THE LEGISLATIVE COUNCIL OF THE GOVERNOR OF MADRAS.

The Select Committee appointed to consider the Bill to amend the Madras Hindu Religious Endowments Act, 1926, namely, Bill No. 19 of 1933, has the honour to submit the following report.

2 The Bill was published in the *Fort St. George Gazette*—

in English, on the 28th November 1933,

in Telugu, Kanarese and Malayalam, on the 12th December 1933, and

in Tamil, on the 19th December 1933

3. The Committee met on the 22nd March 1934 in the Council Chamber, Fort St. George, and resolved to meet at Stonehouse Hill, Ootacamund, on the 14th May 1934 It accordingly met on the 14th and 19th days of May 1934 at Stonehouse Hill, Ootacamund, and again on the 6th June 1934 in the Committee room to the north of the Council Chamber, Fort St. George, for the consideration of the provisions of the Bill. On the 6th June 1934, it passed its report.

4. The Committee has deleted sub-section (1) of section 44-B as, in its opinion, the question as to whether in any particular case the melvaram and the kudivaram constituted the inam or the melvaram alone was the inam, may appropriately be left to the Collector for decision on the merits. It is thought that it is not necessary to raise any presumption either way to begin with The Committee thinks that the purposes of sub-section (1) will be sufficiently met by providing for a decision by the Revenue authorities as to whether an inam includes only the melvaram right or both the melvaram and the kudivaram rights, subject to the result of a suit by the aggrieved party in a civil court in respect of the kudivaram right. The Committee has accordingly made detailed provisions for the following purposes:—

(*a*) for the initiation of resumption proceedings before the Collector either on the motion of the Collector himself or on the application of the trustee of the math or temple concerned, or the temple committee or the Board or any person having interest in the math or temple acting with the previous consent of the trustee, committee or Board;

(*b*) an enquiry before the Collector and a determination by him after due notice to all parties concerned as to whether the inam consists only of the melvaram or of the melvaram and the kudivaram rights;

(c) an appeal from the Collector's order to the District Collector;

(d) a suit in a civil court by a party aggrieved for determining the quantum of the inam.

The Committee has expressly provided that except as to whether the inam consists of the melvaram and the kudivaram rights or of the melvaram right alone, the civil court shall not have jurisdiction to entertain any question about the validity of the order of resumption.

5. To ensure that the provisions of the Bill are rendered effective, the Committee has provided that an order of regrant made by the Revenue authorities, shall be executable by the Collector, in the manner prescribed.

6. The provisions of the Bill have been extended so as to cover cases of inams granted for the performance of any *charity* connected with a temple or math as well as of a *service* connected with a temple or math. This change brings the language of the Bill into conformity with that of section 44 of the Madras Hindu Religious Endowments Act, 1926

7. To provide for cases where the math or temple has ceased to exist and the performance of the service or charity has become impossible, the Committee has provided that the inam, when resumed, should be regranted for administration by the Board for the purposes mentioned in section 67 of the Madras Hindu Religious Endowments Act, 1926.

8. In the Bill as originally drafted *any* alienation or encumbrance of a service inam connected with a temple was declared null and void, and on such alienation or encumbrance the inam became liable to be resumed by the Local Government. The Committee considers that the words 'alienation or encumbrance' are too wide, and have substituted therefor the words 'exchange, gift, sale, mortgage or lease for a term exceeding five years.' This brings the language in accordance with that used in section 76 of the Madras Hindu Religious Endowments Act, 1926.

9. The Committee has made various verbal changes in the Bill, which it is unnecessary to refer to here.

10. The Bill, as amended, is annexed

11. The Committee considers it necessary that the Bill should be republished.

B. MUNISWAMI NAIDU,
Chairman.

BILL No 19 OF 1933.

(As amended by the Select Committee.)

A Bill further to amend the Madras Hindu Religious Endowments Act, 1926, for certain purposes.

Madras Act II of 1927.

WHEREAS it is expedient to amend the Madras Hindu Religious Endowments Act, 1926, for the purposes hereinafter appearing;

AND WHEREAS the previous sanction of the Governor-General has been obtained to the passing of this Act; It is hereby enacted as follows:—

1. This Act may be called the Madras Hindu Religious Endowments (Amendment) Act, 1934.

Madras Act II of 1927.

2 . . . . . After section 44-A of the Madras Hindu Religious Endowments Act, 1926, the following section shall be inserted, namely:—

. . . . . .

. . . . . .

44-B (1) Any exchange, gift, sale or mortgage and any lease for a term exceeding five years of the whole or any portion of any inam granted for the performance of a charity or service connected with a math or temple and made, confirmed or recognized by the British Government, shall be null and void.

(2) (*a*) The Collector may, on his own motion, or, on the application of the trustee of the math or temple or of the Committee or of the Board, or of any person having interest in the math or temple who has obtained the consent of such trustee, committee or board, by order, resume any such inam either on the ground that the holder thereof has made an exchange, gift, sale or mortgage of the same or any portion thereof or has granted a lease of the same or any portion thereof for a term exceeding five years, or on the

ground that such holder has failed to perform or make the necessary arrangements for performing, in accordance with the custom or usage of such math or temple, the charity or service for performing which the inam had been made, confirmed or recognized by the British Government, or on the ground that the math or temple has ceased to exist or the charity or service in question has in any way become impossible of performance. When passing an order under this clause, the Collector shall determine whether the inam comprises both the melvaram and the kudivaram or only the melvaram.

(*b*) Before passing an order under clause (*a*) the Collector shall give notice to the trustee, to the Committee, to the Board, to the inamdar concerned and to the alienee, if any, hear their objections, if any, and hold such enquiry as may be prescribed by the Local Government.

(*c*) An order passed under clause (*a*) shall be communicated to the persons or bodies mentioned in clause (*b*) and also published in the manner prescribed.

(*d*) (i) Any party aggrieved by an order of the Collector under clause (*a*) may appeal to the District Collector within such time as may be prescribed, and on such appeal the District Collector may, after giving notice to the persons or bodies mentioned in clause (*b*) and after such enquiry as may be prescribed, pass an order confirming, modifying or cancelling the order of the Collector.

(ii) The order of the District Collector on such appeal or the order of the Collector under clause (*a*) where no appeal is preferred under sub-clause (*i*) to the District Collector within the time prescribed, shall be final:

Provided that where there has been an appeal under sub-clause (i) and it has been decided by the District Collector or where there has been no appeal to the District Collector and the time for preferring an appeal has expired, any party aggrieved by the final order of the District Collector or the Collector as the case may be, may file a suit in a civil court for determining whether the inam comprises both the melvaram and the kudivaram or only the melvaram. Such a suit shall be instituted within six months—

from the date of the order of the District Collector on appeal, where there has been an appeal under sub-clause (i), or,

from the date of the expiry of the period prescribed under sub-clause (i) for an appeal to the District Collector, in a case where there has been no appeal.

(*e*) Except as otherwise provided in clause (*d*) an order of resumption passed by the Collector under clause (*a*) shall not be liable to be questioned in any court by suit or otherwise.

(*f*) Where an inam is resumed under clause (*a*) it shall by order be regranted as an endowment to the math or temple concerned provided that where an inam is resumed on the ground that the math or temple has ceased to exist or the charity or service in question has in any way become impossible of performance, the inam shall be granted for purposes to which the Board may under section 67 direct that it shall be appropriated.

(*g*) The order of regrant made under clause (*f*) shall on application within the time prescribed, be executed by the Collector in the manner prescribed.
